Students are not required to bring their own set of tools to class. They are encouraged to begin their professional collection early so that they may be better prepared for the workforce upon graduation.

Suggested Tools List - Weber State University

A test light, test lamp, voltage tester, or mains tester is a piece of electronic test equipment used to determine the presence of electricity in a piece of equipment under test. A test light is simpler and less costly than a measuring instrument such as a multimeter, and often suffices for checking for the presence of voltage on a conductor. Properly designed test lights include features to ...
