Supergiant stars can be identified on the basis of their spectra, with distinctive lines sensitive to high luminosity and low surface gravity. In 1897, Antonia C. Maury had divided stars based on the widths of their spectral lines, with her class "c" identifying stars with the narrowest lines. Although it was not known at the time, these were the most luminous stars.

As you pass through the E-ZPass facility, your E-ZPass tag is read. In an instant, the tag information is read by an overhead antenna in the E-ZPass facility and the proper charge is deducted from your E-ZPass account. At some facilities, there are gates that will go up when a valid tag is read. A video enforcement system is in place to identify charge evaders.
